

DI10

Active Direct Injection Box

SKU: 358220

The **Smart Acoustic DI10** is a reliable, professional quality **active DI box**, in a compact and heavy-duty case.

The DI10 is perfect for any **Live or Studio solution** for direct instrument or line level input into your mixing console. The DI10 converts a Hi-Z instrument level signal or line level signal into a balanced low impedance signal. It operates on either a 9V Battery or via your mixing consoles +48v Phantom Power which is shown by its intuitive indicator light.

- Heavy Duty Die Cast Metal Case
- 20dB pad on input & Earth lift
- Operates from a 9v Battery or via +48V Phantom Power
